Hello Dan,

I am out of the office today, but I have received information that this request for seven single light outages was repaired last night. Please note that there are several more single light outages requiring further attention on Hollywood Blvd and we will schedule those for repair. Also, the special equipment needed from your previous request was never ordered due to the end of the fiscal year and GSD warehouse annual closure period. We should be able to have this equipment ordered now that the new fiscal year has started. We will keep you updated.

Thanks,

Hello Daniel,

This request for several single light outages was finally repaired and completed last week. We had finally received the special internal fixture components and also had to replace some of the failed special underground switching equipment to restore the lighting.
